

# Safety Data Sheet

|         |          |   |
|---------|----------|---|
| section | <b>1</b> | <b>Identification of the substance/mixture and of the company/undertaking</b> |
|---------|----------|---|

## 1.1 Product identifier

Trade name/designation : Scent cannelle douce.  
Article No (user) : 1705470.  
UFI : 169C-KWTU-E407-FASP

## 1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses : Ingredient for industrial use: perfume composition.  
Uses advised against : No data available.

## 1.3 Details of the supplier of the safety data sheet

Supplier : **Name:** LAB SAS  
**Street:** 1 rue de la clef des champs  
**Postal code/City:** 68600 Volgelsheim  
**Country:** France :  
**Telephone:** 0389227765  
**E-mail:** Office@labsys.fr

## 1.4 Emergency Telephone Number

**United Kingdom:**  
+35625454030 +35 (0) 31 837 9964 (medical professionals) +35 (0) 31 809 2166 (public) In England and Wales: dial 111 ( NHS 111), In Scotland: dial 111 (NHS 24), In Northern Ireland: Contact your local GP or pharmacist during normal hours.  
During GP Out-of-Hours ([www.gpoutofhours.hscni.net/](http://www.gpoutofhours.hscni.net/)): Belfast HSC Trust, (North & West) 028 9074 4447, (South & East) 028 9079 6220 South Eastern HSC Trust, (North Down & Ards) 028 9182 2344, (Lisburn & Downpatrick) 028 9260 2204, Dalriada Urgent Care (Northern Trust area) 028 2566 3500, Southern HSC Trust 028 3839 9201, Western Urgent Care 028 7186 5195.

|         |          |                               |
|---------|----------|-------------------------------|
| section | <b>2</b> | <b>Hazards identification</b> |
|---------|----------|-------------------------------|

## 2.1 Classification of the substance or mixture

Classification according to the regulation (EC) n°1272/2008 (CLP) and its amendments

### Hazards identification:

|      |                   |  |
|------|-------------------|--|
| H315 | Skin Irrit. 2     | Causes skin irritation.                          |
| H317 | Skin Sens. 1B     | May cause an allergic skin reaction.             |
| H319 | Eye Irrit. 2      | Causes serious eye irritation                    |
| H400 | Aquatic Acute 1   | Very toxic to aquatic life.                      |
| H411 | Aquatic Chronic 2 | Toxic to aquatic life with long lasting effects. |

## 2.2 Label elements

Label elements according to the regulation (EC) n°1272/2008 (CLP) and its amendments

Labelling

## Hazard pictograms

## Signal word

Warning

## Hazard Statements

- H315 Causes skin irritation.  
H317 May cause an allergic skin reaction.  
H319 Causes serious eye irritation  
H400 Very toxic to aquatic life.  
H411 Toxic to aquatic life with long lasting effects.

## Supplemental Hazard information (EU)

EUH208 Contains caryophyllene, 4-tert-butylcyclohexyl acetate, cinnamaldehyde, isoeugenol, ethyl 2,3-epoxy-3-phenylbutyrate, cinnamionitrile,  $\alpha$ -methylcinnamaldehyde, cineole, 2,4-dimethylcyclohex-3-ene-1-carbaldehyde, eugenol, coumarin, allyl 3-cyclohexylpropionate, (E)-1-(2,6,6-trimethyl-2-cyclohexen-1-yl)-2-buten-1-one, (R)-p-mentha-1,8-diene, methyl 2,4-dihydroxy-3,6-dimethylbenzoate. May produce an allergic reaction.

## Precautionary Statements - Prevention

- P264 Wash ... thoroughly after handling.  
P272 Contaminated work clothing should not be allowed out of the workplace.  
P273 Avoid release to the environment.  
P280 Wear protective gloves/protective clothing/eye protection/face protection.

## Precautionary Statements - Response

- P302+P352 IF ON SKIN: Wash with plenty of water.  
P305+P351+ P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P332+P313 If skin irritation occurs: Get medical advice/attention.  
P333+P313 If skin irritation or rash occurs: Get medical advice/attention.  
P337+P313 If eye irritation persists: Get medical advice/attention.  
P362+P364 Take off contaminated clothing and wash it before reuse.  
P391 Collect spillage.

## Precautionary Statements - Disposal

- P501 Dispose of contents/container to ....

## Contains

eugenol, cinnamaldehyde, (R)-p-mentha-1,8-diene, coumarin

## 2.3 Other hazards

According to Regulation (EU) 1907/2006, no substances are assessed as PBT or vPvB.

According to Regulation (EU) 2017/2100 or Regulation (EU) 2018/605, no substances are known to have endocrine disrupting properties.

section  
**3**

## Composition/information on ingredients

## 3.2 Mixtures

In accordance with the product knowledge, no nanomaterials have been identified.

The mixture does not contain any substances classified as Substances of Very High Concern (SVHC) by the European Chemicals Agency (ECHA) under article 57 of REACH: <http://echa.europa.eu/fr/candidate-list-table>.

| Substance                                       | Concentration (%) | Specific concentration limits | Classification     |
|---|-------------------|-------------------------------|--------------------|
| <b><math>\alpha</math>-methylcinnamaldehyde</b> |                   |                               |                    |

## First aid measures

### 4.1 Description of first aid measures

#### General information:

In case of accident or unwellness, seek medical advice immediately (show directions for use or safety data sheet if possible).

Remove victim out of the danger area.

Keep affected person warm, still and covered.

Do not leave affected person unattended.

#### Following inhalation:

Remove person to fresh air and keep comfortable for breathing.

#### Following skin contact:

Take off contaminated clothing.

In case of skin irritation, consult a physician.

Remove contaminated, saturated clothing immediately.

After contact with skin, wash immediately with plenty of water and soap.

In case of skin reactions, consult a physician.

#### Following eye contact:

In case of eye irritation consult an ophthalmologist.

Rinse immediately carefully and thoroughly with eye-bath or water.  
Remove contact lenses, if present and easy to do. Continue rinsing.  
Protect unharmed eye.

## **Following ingestion:**

Never give anything by mouth to an unconscious person or a person with cramps.

IF SWALLOWED: Rinse mouth.

Do NOT induce vomiting.

## **Self-protection of the first aider:**

First aider: Pay attention to self-protection!

## **4.2 Most important symptoms and effects, both acute and delayed**

The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11.

## **4.3 Indication of any immediate medical attention and special treatment needed**

### **Notes for the doctor:**

Treat symptomatically.

|                     |                              |
|---------------------|------------------------------|
| section<br><b>5</b> | <b>Firefighting measures</b> |
|---------------------|------------------------------|

### **5.1 Extinguishing media**

#### **Suitable extinguishing media:**

Foam.

Extinguishing powder.

Carbon dioxide (CO<sub>2</sub>).

Sand.

#### **Unsuitable extinguishing media:**

Strong water jet.

### **5.2 Special hazards arising from the substance or mixture**

Formation of toxic gases is possible during heating or in case of fire.

### **5.3 Advice for firefighters**

Wear a self-contained breathing apparatus and chemical protective clothing.

#### **Additional information**

Do not inhale vapors and fumes.

Co-ordinate fire-fighting measures to the fire surroundings.

Move undamaged containers from immediate hazard area if it can be done safely.

Use caution when applying carbon dioxide in confined spaces. carbon dioxide can displace oxygen.

Use water spray jet to protect personnel and to cool endangered containers.

Collect contaminated fire extinguishing water separately. Do not allow entering drains or surface water.

|                     |                                    |
|---------------------|------------------------------------|
| section<br><b>6</b> | <b>Accidental release measures</b> |
|---------------------|------------------------------------|

### **6.1 Personal precautions, protective equipment and emergency procedures**

Use personal protection equipment.

Remove persons to safety.

Use appropriate respiratory protection.

Provide adequate ventilation.

### **6.2 Environmental precautions**

Ensure that waste is collected and contained.

In case of gas escape or of entry into waterways, soil or drains, inform the responsible authorities.

Avoid release to the environment.

Cover drains.

Ensure all waste water is collected and treated via a waste water treatment plant.

Do not allow to enter into soil/subsoil.  
Do not allow to enter into surface water or drains.  
Retain contaminated washing water and dispose it.  
Contain leaks or spills within cabinets with removable trays.

## 6.3 **Methods and material for containment and cleaning up**

Treat the recovered material as prescribed in the section on waste disposal.  
Collect in closed and suitable containers for disposal.  
Clean contaminated objects and areas thoroughly observing environmental regulations.  
Collect spillage.  
Absorb with liquid-binding material ( e.g. sand, diatomaceous earth, acid- or universal binding agents).  
Wipe up with absorbent material (eg. cloth, fleece).

## 6.4 **Reference to other sections**

Safe handling: see section 7.  
Disposal: see section 13.  
Personal protection equipment: see section 8.

### **Additional information**

|--|-------------------------------|
| <div style="writing-mode: vertical-rl; transform: rotate(180deg);">section</div> <div style="font-size: 2em; font-weight: bold;">7</div> | <h2>Handling and Storage</h2> |
|--|-------------------------------|

## 7.1 **Precautions for safe handling**

### **PROTECTIVE MEASURES:**

Avoid contact with skin, eyes and clothes.  
Wear personal protective clothing (see section 8).  
Sewers and ducts must be protected against the entry of the product.  
Do not put any product-impregnated cleaning rags into your trouser pockets.  
Provide for retaining containers, eg. floor pan without outflow.  
Use only in well-ventilated areas.  
If local exhaust ventilation is not possible or not enough, the entire work area must be ventilated by technical means.  
Provide adequate ventilation as well as local exhaustion at critical locations.  
Vapours/aerosols should be exhausted directly at the point of origin.  
Avoid breathing gas/fumes/vapour/spray.

### **Advices on general occupational hygiene:**

Wash hands before breaks and after work.  
Wash contaminated clothing before reuse.  
Street clothing should be stored separately from work clothing.  
Remove contaminated, saturated clothing immediately.  
Work in well ventilated zones or use proper respiratory protection.

### **In the immediate working surroundings there must be:**

Provide eye shower and label its location conspicuously.

## 7.2 **Conditions for safe storage, including any incompatibilities**

Keep container tightly closed in a dry, cool, and well-ventilated place.  
Keep container in upright position in order to prevent leakage.

### **Requirements for storage rooms and vessels:**

Use isolated drainage to prevent discharge to soil.  
Ensure adequate ventilation of the storage area.

### **Advice on joint storage:**

Keep away from food, drink and animal feedingstuffs.

## 7.3 **Specific end uses**

Apart from the uses mentioned in section 1.2 no other specific uses are stipulated.

| <div style="writing-mode: vertical-rl; transform: rotate(180deg);">section</div> <div style="font-size: 2em; font-weight: bold;">8</div> | <h2>Exposure controls/personal protection</h2> |
|--|--|

## 8.1 Control parameters

### Occupational exposure limits:

Not available

### Biological limit values:

Not available

### Exposure limits at intended use:

Not available

### Remark:

Not available

## 8.2 Exposure controls

### Appropriate engineering controls:

Technical measures and the application of suitable work processes have priority over personal protection equipment. Provide adequate ventilation as well as local exhaust at critical locations.

### Individual protection measures, such as personal protective equipment:

Eye/face protection

#### : Suitable eye protection:

Wear eye protection equipment.

#### Recommended eye protection articles:

Eye glasses.

Skin protection

#### : Hand protection:

##### Suitable gloves type:

Wear protective gloves.

##### Suitable material:

NBR (nitrile rubber).

##### Additional hand protection measures:

Do not wear gloves near machines and rotating tools.

Use gloves only once.

##### Remark:

When handling with chemical substances, protective gloves must be worn with the CE-label including the four control digits.

The quality of the protective gloves resistant to chemicals must be chosen as a function of the specific working place concentration and quantity of hazardous substances.

For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

Breakthrough times and swelling properties of the material must be taken into consideration.

##### Body protection:

##### Suitable protective clothing:

Lab coat.

Respiratory protection

#### : Respiratory protection necessary at:

If technical exhaust or ventilation measures are not possible or insufficient, respiratory protection must be worn.

##### Suitable respiratory protection apparatus:

Wear respiratory protection.

##### Remark:

The filter class must be suitable for the maximum contaminant concentration (gas/vapour/aerosol/particulates) that may arise when handling the product. If the concentration is exceeded, self-contained breathing apparatus must be used.

Observe the wear time limits as specified by the manufacturer.

Use only respiratory protection equipment with CE-symbol including four digit test number.

## Environmental exposure controls:

| Kinematic viscosity                               | : Not available                              |
| Oxidising properties                              | : Not available                              |
| Solubility in other Solvents                      | : Not available                              |
| Particle characteristics                          | : Not applicable                             |

### 9.2 Other safety information

#### Information concerning to the classes of physical hazards

Not available

#### Other security characteristics

Not available

## section 10 Stability and Reactivity

### 10.1 Reactivity

No data available.

### 10.2 Chemical stability

The product is stable when stored at normal ambient temperatures.

### 10.3 Possibility of hazardous reactions

No hazardous reaction when handled and stored according to provisions.

### 10.4 Conditions to avoid

No data available.

## 10.5 Incompatible materials

No data available.

## 10.6 Hazardous decomposition products

Does not decompose when used for intended uses.

### Additional information

Not available

# section 11 Toxicological information

## 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

### Acute oral toxicity:

The product is not classified.

#### **Substances:**

Not available

### Acute dermal toxicity:

The product is not classified.

#### **Substances:**

Not available

### Acute inhalation toxicity:

The product is not classified.

#### **Substances:**

Not available

### Skin corrosion/irritation:

The product is not classified.

#### **Substances:**

Not available

### Serious eye damage/irritation:

The product is classified Eye Irrit. 2 according to the referenced regulation.

Causes serious eye irritation.

#### **Substances:**

Not available

### Skin sensitisation:

The product is classified Skin Sens. 1B according to the referenced regulation.

May cause an allergic skin reaction.

#### **Substances:**

Not available

### Specific target organ toxicity (repeated exposure):

The product is not classified.

#### **Substances:**

Not available

### Specific target organ toxicity (single exposure):

The product is not classified.

#### **Substances:**

Not available

### Carcinogenicity:

The product is not classified.

#### **Substances:**

Not available

### Reproductive toxicity:

The product is not classified.

#### **Substances:**

Not available

**Germ cell mutagenicity:**

The product is not classified.

**Substances:**

Not available

**Sensitisation to the respiratory tract:**

The product is not classified.

**Substances:**

Not available

**Additional information:**

Not available

## 11.2 **Information on other hazards**

**Endocrine disrupting properties:**

According to Regulation (EU) 2017/2100 or Regulation (EU) 2018/605, no substances are known to have endocrine disrupting properties.

## section 12 **Ecological information**

### 12.1 **Toxicity**

Very toxic to aquatic life.

Toxic to aquatic life with long lasting effects.

**Substances:**

Not available

### 12.2 **Persistence and degradability**

The product has not been tested.

**Substances:**

Not available

### 12.3 **Bioaccumulative potential**

The product has not been tested.

**Substances:**

Not available

### 12.4 **Mobility in soil**

The product has not been tested.

**Substances:**

Not available

### 12.5 **Results of PBT and vPvB assessment**

According to Regulation (EU) 1907/2006, no substances are assessed as PBT or vPvB.

### 12.6 **Endocrine disrupting properties**

According to Regulation (EU) 2017/2100 or Regulation (EU) 2018/605, no substances are known to have endocrine disrupting properties.

### 12.7 **Other adverse effects**

Not available

**Additional ecotoxicological information**

Not available

## section 13 **Disposal considerations**

### 13.1 **Waste treatment methods**

**Product/Packaging disposal:**
**Waste codes/waste designations according to EWC/AVV:**

The allocation of waste identity numbers/waste descriptions must be carried out according to the EEC, specific to the industry and process.

**Waste treatment options:**
**Appropriate disposal/Product:**

Waste requiring special supervision.

Dispose of waste according to applicable legislation.

Delivery to an approved waste disposal company.

**Appropriate disposal/Package:**

Non-contaminated packages must be recycled or disposed of.

Contaminated packing must be completely emptied and can be reused after proper cleaning.

Packing which cannot be properly cleaned must be disposed of.

Handle contaminated packages in the same way as the substance itself.

Dispose of waste according to applicable legislation.

**Remark:**

For recycling, contact manufacturer.

Collect the waste separately.

Consult the appropriate authorities about waste disposal.

Do not mix with other wastes.

The waste is to be kept separate from other types of waste until its disposal.

Concerning the waste it has to be checked, whether a transport authorisation is required.

## **Training advice**

Refer to Sections 4, 5, 6, 7 and 8 of this safety data sheet.

## **Additional information**

Creation date: 09/10/2025

Version date: 09/10/2025

Printing date: 10/10/2025

The information given in this Safety Data Sheet is based on our present knowledge and on European and national regulations. This Safety Data Sheet describes safety requirements relative to identified uses, it doesn't guarantee all the product properties particularly in the case of non identified uses. The product mustn't be used for any uses other than those identified under heading 1. Since the user's working conditions are not known by us, it is the responsibility of the user to take all necessary measures to comply with legal requirements for specific uses and avoid negative health effects.
