### First aid measures

#### 4.1 Description of first aid measures

General information:

In case of accident or unwellness, seek medical advice immediately (show directions for use or safety data sheet if possible).

Do not leave affected person unattended.

Remove victim out of the danger area.

Keep affected person warm, still and covered.

#### **Following inhalation:**

Transporter la victime à l'extérieur et la maintenir dans une position où elle peut.

Remove person to fresh air and keep comfortable for breathing.

#### **Following skin contact:**

Remove contaminated, saturated clothing immediately.

After contact with skin, wash immediately with plenty of water and soap.

Take off immediately all contaminated clothing.

In case of skin irritation, consult a physician.

Immediate medical treatment required because corrosive injuries that are not treated are hard to cure.

In case of skin reactions, consult a physician.

#### **Following eye contact:**

Remove contact lenses, if present and easy to do. Continue rinsing.

In case of contact with eyes flush immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart and consult an ophthalmologist.

Protect unharmed eye.

#### **Following ingestion:**

Never give anything by mouth to an unconscious person or a person with cramps.

IF SWALLOWED: Rinse mouth.

Do NOT induce vomiting.

If swallowed: Call a POISON CENTER or physician if you feel unwell.

#### **Self-protection of the first aider:**

First aider: Pay attention to self-protection!

### **4.2 Most important symptoms and effects, both acute and delayed**

The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11.

### **4.3 Indication of any immediate medical attention and special treatment needed**

#### **Notes for the doctor:**

Treat symptomatically.

section <b>5</b>	<b>Firefighting measures</b>
---------------------	------------------------------

### **5.1 Extinguishing media**

#### **Suitable extinguishing media:**

Foam.

Extinguishing powder.

Carbon dioxide (CO<sub>2</sub>).

Sand.

#### **Unsuitable extinguishing media:**

Strong water jet.

### **5.2 Special hazards arising from the substance or mixture**

Formation of toxic gases is possible during heating or in case of fire.

### **5.3 Advice for firefighters**

Wear a self-contained breathing apparatus and chemical protective clothing.

#### **Additional information**

Do not inhale vapors and fumes.

Co-ordinate fire-fighting measures to the fire surroundings.

Move undamaged containers from immediate hazard area if it can be done safely.

Use caution when applying carbon dioxide in confined spaces. carbon dioxide can displace oxygen.

Use water spray jet to protect personnel and to cool endangered containers.  
Collect contaminated fire extinguishing water separately. Do not allow entering drains or surface water.

section <b>6</b>	<b>Accidental release measures</b>
---------------------	------------------------------------

**6.1 Personal precautions, protective equipment and emergency procedures**

Use personal protection equipment.  
Remove persons to safety.  
Use appropriate respiratory protection.  
Provide adequate ventilation.

**6.2 Environmental precautions**

Ensure that waste is collected and contained.  
In case of gas escape or of entry into waterways, soil or drains, inform the responsible authorities.  
Avoid release to the environment.  
Cover drains.  
Ensure all waste water is collected and treated via a waste water treatment plant.  
Do not allow to enter into soil/subsoil.  
Do not allow to enter into surface water or drains.  
Retain contaminated washing water and dispose it.  
Contain leaks or spills within cabinets with removable trays.

**6.3 Methods and material for containment and cleaning up**

Treat the recovered material as prescribed in the section on waste disposal.  
Collect in closed and suitable containers for disposal.  
Clean contaminated objects and areas thoroughly observing environmental regulations.  
Ventilate affected area.  
Collect spillage.  
Absorb with liquid-binding material ( e.g. sand, diatomaceous earth, acid- or universal binding agents).  
Wipe up with absorbent material (eg. cloth, fleece).

**6.4 Reference to other sections**

Safe handling: see section 7.  
Disposal: see section 13.  
Personal protection equipment: see section 8.

Do not eat, drink or smoke when using this product.  
Wear personal protective clothing (see section 8).  
Only allow access to authorised staff.  
Do not put any product-impregnated cleaning rags into your trouser pockets.  
Sewers and ducts must be protected against the entry of the product.  
Provide for retaining containers, eg. floor pan without outflow.  
Use only in well-ventilated areas.  
If local exhaust ventilation is not possible or not enough, the entire work area must be ventilated by technical means.  
Provide adequate ventilation as well as local exhaustion at critical locations.  
Vapours/aerosols should be exhausted directly at the point of origin.  
Avoid breathing gas/fumes/vapour/spray.

**Advices on general occupational hygiene:**

- Wash hands before breaks and after work.
- Street clothing should be stored separately from work clothing.
- Wash contaminated clothing before reuse.
- Remove contaminated, saturated clothing immediately.
- Work in well ventilated zones or use proper respiratory protection.

**In the immediate working surroundings there must be:**

- Provide eye shower and label its location conspicuously.

**7.2 Conditions for safe storage, including any incompatibilities**

- Keep container tightly closed in a dry, cool, and well-ventilated place.
- Keep container in upright position in order to prevent leakage.

**Requirements for storage rooms and vessels:**
