

Safety Data Sheet

section
1

Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name/designation : Parfum nuance de noir.

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses : Ingredient for industrial use: perfume composition.

1.3 Details of the supplier of the safety data sheet

Supplier : **Name:** LAB SAS
Street: 1 rue de la clef des champs
Postal code/City: 68600 Volgelsheim
Country: France :
Telephone: 33 (0) 43 89 22 77 65
E-mail: Office@labsys.fr

1.4 Emergency Telephone Number

United Kingdom:

+33 (0)1 45 42 59 59 (24h/24 7j/7).

+35625454030 +35 (0) 31 837 9964 (medical professionals) +35 (0) 31 809 2166 (public) In England and Wales: dial 111 (NHS 111), In Scotland: dial 111 (NHS 24), In Northern Ireland: Contact your local GP or pharmacist during normal hours. During GP Out-of-Hours (www.gpoutofhours.hscni.net/): Belfast HSC Trust, (North & West) 028 9074 4447, (South & East) 028 9079 6220 South Eastern HSC Trust, (North Down & Ards) 028 9182 2344, (Lisburn & Downpatrick) 028 9260 2204, Dalriada Urgent Care (Northern Trust area) 028 2566 3500, Southern HSC Trust 028 3839 9201, Western Urgent Care 028 7186 5195.

section
2

Hazards identification

2.1 Classification of the substance or mixture

Classification according to the regulation (EC) n°1272/2008 (CLP) and its amendments

Hazards identification:

H317	Skin Sens. 1B	May cause an allergic skin reaction.
H319	Eye Irrit. 2	Causes serious eye irritation
H412	Aquatic Chronic 3	Harmful to aquatic life with long lasting effects

2.2 Label elements

Label elements according to the regulation (EC) n°1272/2008 (CLP) and its amendments

Labelling

Hazard pictograms

Signal word

Warning

Hazard Statements

- H317 May cause an allergic skin reaction.
 H319 Causes serious eye irritation
 H412 Harmful to aquatic life with long lasting effects

Supplemental Hazard information (EU)

EUH208 Contains Cyclopropanemethanol, 2-(1,4-dimethyl-3-penten-1-yl)-1-methyl-, pin-2(3)-ene, 1-(2,6,6-trimethyl-3-cyclohexen-1-yl)-2-buten-1-one, citronellol, (E)-1-(2,6,6-trimethyl-2-cyclohexen-1-yl)-2-buten-1-one, methyl 2,4-dihydroxy-3,6-dimethylbenzoate, geraniol, pin-2(10)-ene, 6-sec-butylquinoline, cinnamyl alcohol, 3-p-cumenyl-2-methylpropionaldehyde, 2-isopropoxyethyl salicylate. May produce an allergic reaction.

Precautionary Statements - Prevention

- P272 Contaminated work clothing should not be allowed out of the workplace.
 P273 Avoid release to the environment.
 P280 Wear protective gloves/protective clothing/eye protection/face protection.

Precautionary Statements - Response

- P302+P352 IF ON SKIN: Wash with plenty of water.
 P305+P351+ P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
 P333+P313 If skin irritation or rash occurs: Get medical advice/attention.
 P337+P313 If eye irritation persists: Get medical advice/attention.
 P362+P364 Take off contaminated clothing and wash it before reuse.

Precautionary Statements - Disposal

- P501 Dispose of contents/container to

Contains

3-p-cumenyl-2-methylpropionaldehyde, 1-(2,6,6-trimethyl-3-cyclohexen-1-yl)-2-buten-1-one

2.3 Other hazards

Not available

 section
3
Composition/information on ingredients
3.2 Mixtures

The mixture does not contain any substances classified as Substances of Very High Concern (SVHC) by the European Chemicals Agency (ECHA) under article 57 of REACH: <http://echa.europa.eu/fr/candidate-list-table>.

Substance	Concentration (%)	Specific concentration limits	Classification
A mixture of: cis-tetrahydro-2-isobutyl-4-methylpyran-4-ol; trans-tetrahydro-2-isobutyl-4-methylpyran-4-ol			
CAS N°	C= 5.56%		
EC N°	405-040-6

section

4 First aid measures

4.1 Description of first aid measures

General information:

In case of excessive inhalation, take the person to fresh air and keep them in a resting position. Consult a doctor.
Nil.

Remove contaminated clothing immediately, wash the skin with water and soap, and rinse thoroughly for at least 20 minute. If irritation persists or if lesions appear, consult a doctor.

If you wear contact lenses, remove them. In case of contact with the eyes, rinse the eyes thoroughly with water for about twenty minutes. If irritation persists, or if lesions appear, consult a doctor.

Rinse mouth with water. Do not give anything to drink. Do not attempt to induce vomiting and call a doctor.

Following ingestion:

IF SWALLOWED: Rinse mouth.

4.2 Most important symptoms and effects, both acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11.

4.3 Indication of any immediate medical attention and special treatment needed

Notes for the doctor:

Nil.

section

5 Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media:

Powder/foam or carbon dioxide fire extinguisher, water spray or alcohol-resistant foam for large fires.

Unsuitable extinguishing media:

Do not direct a jet of water directly onto the ignited product.

5.2 Special hazards arising from the substance or mixture

Combustion releases carbon monoxide, carbon dioxide, and smoke. Exposure to substances produced during combustion or decomposition can be hazardous to health.

Formation of toxic gases is possible during heating or in case of fire.

5.3 Advice for firefighters

Prevent container heating with water curtains. Use self-contained breathing apparatus and fire-fighting gear.

Additional information

Not available

section

6 Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Refer to the protective measures listed in sections 7 and 8.

Do not smoke. Do not expose to a flame or any potential source of ignition (e.g. electrical equipment).

Avoid contact with the skin, as well as inhalation of vapors. Ensure adequate ventilation of the workplace.

Do not expose to flame or any potential source of ignition (e.g. electrical equipment).

Ensure adequate ventilation of the workplace.

Avoid contact with skin and eyes.

The participants will be equipped with appropriate personal protective equipment.

6.2 Environmental precautions

Avoid any direct discharge into the sewer, surface water, and groundwater, do not allow penetration into the soil (see point 6.3).

6.3 Methods and material for containment and cleaning up

Absorb material with inert absorbent powders or granules (sand...).

Significant overflows must be absorbed by sand or an inert powder, then disposed of according to current regulations.

If rags are used for wiping, dispose of them quickly by incineration, as cases of self-oxidation with spontaneous combustion are known.

Clean the powder with a vacuum cleaner. Wash with water and detergent.

Elimination of gases/smoke by water spraying.

Wash with water and detergent.

6.4 Reference to other sections

For exposure control and individual protection measures, see paragraph 8.

For waste disposal considerations, see paragraph 13.

Additional information

V11-CLP Date de révision : 26/11/2024.

section 7	Handling and Storage
----------------------------	-----------------------------

7.1 Precautions for safe handling

PROTECTIVE MEASURES:

Do not drink, eat, or smoke during handling. Do not expose to flame or any potential ignition source.

Avoid breathing gas/fumes/vapour/spray.

7.2 Conditions for safe storage, including any incompatibilities

Keep container tightly closed in a dry, cool, and well-ventilated place.

Keep container in upright position in order to prevent leakage.

Requirements for storage rooms and vessels:

Store at room temperature (20°C +/- 5°C), in a cool, dry, well-ventilated place, away from light, in original containers if possible, full and tightly closed. Keep away from any ignition source. Once opened, any container must be carefully closed and positioned vertically to prevent spillage.

7.3 Specific end uses

Perfume.

Apart from the uses mentioned in section 1.2 no other specific uses are stipulated.

section 8	Exposure controls/personal protection
----------------------------	--

8.1 Control parameters

Occupational exposure limits:

Substance	Value	Unit	Type
No data available			

No data available

Biological limit values:

Not available

Exposure limits at intended use:

Not available

Remark:

Not available

8.2 Exposure controls

Appropriate engineering controls:

Provide adequate ventilation as well as local exhaust at critical locations.

Individual protection measures, such as personal protective equipment: Not available

Eye/face protection : **Suitable eye protection:**

- Skin protection** : No special measures are necessary.
Hand protection:
Suitable gloves type:
 No special measures are necessary.
Body protection:
Suitable protective clothing:
 No special measures are necessary.
- Respiratory protection** : **Suitable respiratory protection apparatus:**
 No special measures are necessary.
- Environmental exposure controls:**
 Not available
- Consumer exposure controls:**
 Not available
- Additional information**
 Not available

section 9	Physical and chemical Properties
---------------------	---

9.1 Information on basic physical and chemical properties

- Physical state** : Liquid
Colour : Colorless To Amber
Odour : Cyprus - Floral - Leathery
pH : Not available
Melting point/freezing point : Not available
Initial boiling point and boiling range : Not available
Flash point : > 100°C
Flammability : Not available
Upper/lower flammability or explosive limits : Not available
Vapour pressure : Not available
Vapour density : Not available
Relative density : 0.8902
Solubility(ies) : Soluble
Partition coefficient n-octanol/water (log value) : Not applicable
Auto-ignition temperature : Not available
Decomposition temperature : Not available
Dynamic viscosity : Not applicable
Kinematic viscosity : Not available
Oxidising properties : Not available
Solubility in other Solvents : Not available
Particle characteristics : Not applicable

9.2 Other safety information

- Information concerning to the classes of physical hazards**
 Not available
- Other security characteristics**
 Not available

section 10	Stability and Reactivity
----------------------	---------------------------------

10.1 Reactivity

- Avoid contact with oxidizing agents.

Does not present a risk of reactivity by itself or in contact with water.

For any use in alcoholics, it would be preferable to use slightly acidic water with a pH of 6-6.5.

10.2 Chemical stability

Stable under normal environmental conditions.

10.3 Possibility of hazardous reactions

No dangerous reaction under normal conditions of use.

10.4 Conditions to avoid

Avoid temperatures near or above the flash point. Do not heat closed containers.

Do not heat closed containers.

10.5 Incompatible materials

Keep away from oxidizing agents or highly alkaline or acidic materials.

10.6 Hazardous decomposition products

No known hazardous decomposition products under recommended storage conditions.

Additional information

Not available

section	11 Toxicological information
---------	--

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute oral toxicity:

No toxicological data on the mixture itself.

The product is not classified.

Substances:

Not available

Acute dermal toxicity:

No toxicological data on the mixture itself.

The product is not classified.

Substances:

Not available

Acute inhalation toxicity:

No toxicological data on the mixture itself.

The product is not classified.

Substances:

Not available

Skin corrosion/irritation:

No toxicological data on the mixture itself.

The product is not classified.

Substances:

Not available

Serious eye damage/irritation:

No toxicological data on the mixture itself.

The product is classified Eye Irrit. 2 according to the referenced regulation.

Causes serious eye irritation.

Substances:

Not available

Skin sensitisation:

No toxicological data on the mixture itself.

The product is classified Skin Sens. 1 according to the referenced regulation.

May cause an allergic skin reaction.

Substances:

Not available

Specific target organ toxicity (repeated exposure):

No toxicological data on the mixture itself.
The product is not classified.

Substances:

Not available

Specific target organ toxicity (single exposure):

No toxicological data on the mixture itself.
The product is not classified.

Substances:

Not available

Carcinogenicity:

No toxicological data on the mixture itself.
The product is not classified.

Substances:

Not available

Reproductive toxicity:

No toxicological data on the mixture itself.
The product is not classified.

Substances:

Not available

Germ cell mutagenicity:

No toxicological data on the mixture itself.
The product is not classified.

Substances:

Not available

Sensitisation to the respiratory tract:

No toxicological data on the mixture itself.
The product is not classified.

Substances:

Not available

Additional information:

Not available

11.2 Information on other hazards

Other information:

Perfumery products should not be ingested under any circumstances. Keep them away from food and drink.

section	12	Ecological information
---------	----	------------------------

12.1 Toxicity

An environmental hazard cannot be ruled out in the event of non-professional handling or disposal.
Harmful to aquatic life with long lasting effects.

Substances:

Not available

12.2 Persistence and degradability

This information is not available.

Substances:

Not available

12.3 Bioaccumulative potential

This information is not available.

Substances:

Not available

12.4 Mobility in soil

This information is not available.

Substances:

Not available

12.5 Results of PBT and vPvB assessment

This mixture does not contain any component considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or more.

12.6 Endocrine disrupting properties

The mixture does not contain components considered to have endocrine-disrupting properties in accordance with Article 57(f) of REACH or Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or more.

12.7 Other adverse effects

Very toxic to aquatic life with long lasting effects.

Toxic to aquatic life with long term effects.

Harmful to aquatic life with long lasting effects.

Additional ecotoxicological information

Not available

section **13 Disposal considerations**

13.1 Waste treatment methods

Product/Packaging disposal:

Waste treatment options:

Appropriate disposal/Product:

Must be directed to an approved landfill or incinerated in an approved center while respecting local regulations.

Appropriate disposal/Package:

Empty containers must be sent to an approved site for waste treatment for recycling or disposal.

Remark:

Avoid disposal through the sewer and dispersion in the environment.

Additional information

Not available

section **14 Transport information**

	Land transport (ADR/RID):	Inland waterway transport (ADN):	Sea transport (IMDG):	Air transport (ICAO-TI/IATA-DGR):

Classification for mixtures and used evaluation method according to regulation (EC)

1272/2008 [CLP]

Classification of the mixture is in accordance with the evaluation method described in Regulation (EC) No 1272/2008.

Relevant R-, H- and EUH-phrases (Number and full text)

Acute toxicity (oral), category 4, Aquatic Acute 1: Hazardous to the aquatic environment - Acute hazard, category 1, Aquatic Chronic 1: Hazards to the aquatic environment - Chronic hazard, category 1, Aquatic Chronic 2: Hazards to the aquatic environment - Chronic hazard, category 2, Aquatic Chronic 3: Hazards to the aquatic environment - Chronic hazard, category 3, Asp. Tox. 1: Toxicity by aspiration, category 1, Eye Dam. 1: Serious eye damage/eye irritation, category 1, Eye Irrit. 2: Serious eye damage/eye irritation, category 2, Flam. Liq. 3: Flammable liquids, category 3, Skin Irrit. 2: Skin corrosion/irritation, category 2, Skin Sens. 1: Skin sensitization, category 1, Skin Sens. 1A: Skin sensitization, category 1A, Skin Sens. 1B: Skin sensitization, category 1B.

H226	Flam. Liq. 3	Flammable liquid and vapour.
H302	Acute Tox. 4 ORAL	Harmful if swallowed
H304	Asp. Tox. 1	May be fatal if swallowed and enters airways.
H312	Acute Tox. 4 DERMAL	Harmful in contact with skin.
H315	Skin Irrit. 2	Causes skin irritation.
H317	Skin Sens. 1B	May cause an allergic skin reaction.
H318	Eye Dam. 1	Causes serious eye damage
H319	Eye Irrit. 2	Causes serious eye irritation
H400	Aquatic Acute 1	Very toxic to aquatic life.
H410	Aquatic Chronic 1	Very toxic to aquatic life with long lasting effects.
H411	Aquatic Chronic 2	Toxic to aquatic life with long lasting effects.
H412	Aquatic Chronic 3	Harmful to aquatic life with long lasting effects

Training advice

Refer to Sections 4, 5, 6, 7 and 8 of this safety data sheet.

Additional information

Creation date: 27/01/2025

Version date: 27/01/2025

Printing date: 07/02/2025

The information given in this Safety Data Sheet is based on our present knowledge and on European and national regulations. This Safety Data Sheet describes safety requirements relative to identified uses, it doesn't guarantee all the product properties particularly in the case of non identified uses. The product mustn't be used for any uses other than those identified under heading 1. Since the user's working conditions are not known by us, it is the responsibility of the user to take all necessary measures to comply with legal requirements for specific uses and avoid negative health effects.
