TECHNICAL SHEET

Neutral multi-purpose cleaner

Composition : < 5% Savon, Content : Benzyl Alcohol, Phenoxyethanol.

Organoleptic and physicochemical characteristics:

Aspect :	Liquid, transparent
Color :	colorless
Smell :	Characteristic of vinegar and alcohol
pH :	9 +/- 0,5

Product Features: This neutral multi-use sprayable is suitable for all surfaces in the house. It is made the old-fashioned way using the Marseille method using copra oil and olive oil to which alcohol and white alcoholic vinegar are added.
